Profile

Full stack developer with 3 years of experience, focused on creating accessible and responsive systems. I have experience with Javascript frameworks, especially React.js, but I also use Typescript, Next, Node, Nest, Java and C++. Regardless of the language, my goal is to provide efficient and intuitive solutions for users.

Experience

FULLSTACK DEVELOPER | PROSIPE TECHNOLOGY CORPORATION | OUT DE 2022 - ATUALMENTE

Development and maintenance of systems and websites for public and private entities

➢ My responsibilities include developing and maintaining web systems and websites aimed at meeting the needs of public entities. As a full stack developer, I have to manage responsive and intuitive interfaces, scalable and reusable back-end APIs, relational databases and perform cloud deployment with Docker. In addition, I contribute to the organization of the development team and lead the management of the technical support team, ensuring compliance with company protocols and policies in both segments.

Among the systems worked on, the following stand out:
. Electronic process processing system, generation and digital signature of PDF documents.
. Electronic voting system for municipal chambers.
. Request system for communication between the public and the municipality.
. Support and maintenance of chatbot system for WhatsApp web.

IT USER SUPPORT TECHNICIAN | EXATO CONSULTORIA | AUGUST 2021 - 2022.

General technical support
. Coordinate customer support, resolving everyday queries about the use of platforms;
. Verify the need for corrections in the systems, minimizing the occurrence of instabilities, ensuring efficient transmission and continuous operation of the systems;
. Hardware and Software Maintenance.

Monitor the operation of systems
• Test and monitor all implemented functionalities, ensuring that systems are operational and without failures.

Tools used on a daily basis:
Front: Javascript, React and PHP;
Back: Node and Java;
Database: MySQL and PostgreSQL;
Tools: Postman and Eclipse;
Cloud Hosting: GCP and Locaweb;
Individual Tools: Photoshop, Davinci Resolve and Power BI.

Academic background + certifications

SCIENCE AND TECHNOLOGY - EMPHASIS IN COMPUTER ENGINEERING | 2024 - 2029 (FORESEEN) | FEDERAL UNIVERSITY OF RIO GRANDE DO NORTE (UFRN);

SYSTEM ANALYSIS AND DEVELOPMENT | INCOMPLETE | POTIGUAR UNIVERSITY (UNP);

UDEMY: REST API'S RESTFULDO 0 A AWS C SPRING BOOT 3 JAVA AND DOC;

UDEMY: LEARN REACT JS, REDUX, WEBPACK, REDUX -FORM, MONGODB EXPRES NODE AND VARIOUS;

UDEMY: REACT AND TYPESCRIPT: DEVELOPING A DASHB.

Skills

Programming Languages: JavaScript, Typescript, PHP, Java, C++.
Frameworks/Libraries: React.js, Next.js, Nest, Laravel.
Tools: Docker, Node.js, PostgreSQL, MySQL, Postman, Git, GitHub.
Hosting Platforms: AWS, Azure, GCP, Locawebe and Hostgator.
Proficiency: Leadership, Communication, Adaptation to new technologies and resolution of technical problems.

Languages

Portuguese: Native;
English: Intermediate 2.
